EDUCATION

University of Pittsburgh | School of Computing and Information | Kessler Scholar

Pittsburgh, PA

Bachelor of Science in Computer Science | Minor in Economics | GPA: 3.61

Expected Graduation: May 2027

RELEVANT EXPERIENCE

Epicor

Bensalem, PA

Product Management Intern

June 2026 – August 2026

- Led customer discovery interviews with ERP users to identify pain points, translate customer needs into product requirements, and inform redesign of the Order Entry workflow.
- Designed and iterated three Figma prototypes for a new Front Counter Experience, partnering with product managers, developers, and customers to refine user flows and evaluate product solutions.
- Managed communications with 120+ ERP customers throughout the product development lifecycle, delivering product updates and demos while collecting and synthesizing user feedback.
- Built a Power BI dashboard to analyze customer feedback trends and support data-driven prioritization of UI enhancements and product improvements.

AAA Club Alliance

Wilmington, DE

IT Intern, Systems Development

June 2025 – August 2025

- Analyzed the Digital Roadside Request experience across phone, website, mobile app, IVR, and SMS to identify customer experience gaps, system dependencies, and opportunities for process improvement.
- Designed UI mockups and end-to-end workflows in Figma, translating business and user needs into consistent, usable product experiences across digital channels.
- Collaborated with Salesforce Engineering, Digital Product, Systems Development, and Omni Channel teams to evaluate product features against technical feasibility and business priorities.
- Presented a functional prototype and technical roadmap to senior IT leadership, incorporating feedback from security, infrastructure, and application architecture stakeholders.

University of Pittsburgh Learning Research & Development Center

Pittsburgh, PA

Undergraduate Research Assistant

September 2024 – April 2026

Building Real-time Intelligent Grounding in Deaf Education (Sept 2025 – April 2026)

- Contribute to an NSF-funded project developing AI-driven tools (AR, signing avatars, sign recognition) to support deaf students' learning in science education.
- Support co-design sessions, prototyping, and user studies with collaborators at Gallaudet, Northeastern, and Pitt.

Empowering Youth Agency and Meaning-Making for Adaptivity (Sept 2024 – April 2025)

- Designed and prototyped an app that helps teachers assess student engagement, leading UX/UI efforts with human-centered design principles.
- Collaborated with designers and developers to translate user feedback into product features.

PROJECT EXPERIENCE

EduExchange

February 2026 – April 2026

Developer

- Built a Node.js/Express P2P marketplace for university students to facilitate secure, local exchanges.
- Implemented Google OAuth 2.0 and real-time chat to create a verified, high-trust environment for peer-to-peer campus transactions.

Smart Scholar Savings, SheInnovates Hackathon

January 2024

Design Team Member

- Designed and developed a financial budgeting app from ideation to execution to help college students build effective financial habits.
- Integrated a Java back end with a Figma front end to deliver a cohesive, fully functional user experience.

TECHNICAL SKILLS

- **Frameworks and Tools:** Figma, Power BI, GitHub, Visual Studio Code, Microsoft Office, LaTeX
- **Programming Languages:** Java, HTML/CSS, JavaScript, Python, C
